

STEPHANIE ANN STEVENS

INTERNATIONALLY KNOWN

METAPHYSICAL MASTER GUIDE OF THE OM SPIRITUAL HEALING & GROWTH

TESTIMONY FROM EXPERIENCERS OF THE OM

"Stephanie has a gift that can only be experienced, not described. For those who have been fortunate enough to feel the full blast of the OM from her know it's a kinetic shock that quietly transports your soul through dimensions you never knew existed, much less functioned for you. She is only starting to know herself how powerful the spirit is, and how those we love can never be disconnected from us by such a simple thing as mortal death."

Rich Berra

I have attended Stephanie Steven's workshops and observed her in action. I, we, marvel at her astonishing special gift of touching and understanding others and events beyond this world, which she then shares with us. The powerful, pure OM that she generates at the end of each session clears my mind of tension and brings me moments of deep tranquility. Her ability to focus her spirit and share this healing energy with us near and far, is indeed, the mark of a very special practitioner of the higher spirit. Stephanie is a rare and graceful spiritual inspiration for me.

Sincerely,

Mary M. Gordon

I attended Stephanie's seminar the month of September 2006. At the end of the seminar Stephanie sent the OM to the audience. I was very blessed to experience "someone" in spirit hugging me physically! Although I could not see them I

certainly could feel them hug me. This was a first for me and a means of great comfort. I had been wanting valid contact with spirit, and after this "hug" from spirit ... I knew I had the contact I had been hoping for!

Elana

At the end of my reading with Stephanie she sent the OM to me. I had never had this experience before and didn't know what to expect. What happened was wonderful beyond what I could imagine. I saw my life ... my whole life rewind inside my head, and then in a rush of energy it fast forwarded! I was deeply blessed to have experienced the OM. It touched my soul. It made me think of rebirth and gave me a jump start on a whole new beginning. Thank you Stephanie!

Stephanie has been sending the OM to me for more than three years. Each time she sends it to me I have wonderful moments of hearing beautiful celestial voices sing. My hearing instantly transports into another dimension to hear the angels sing. It is truly an unforgettable phenomenon!

Kevin

From Stephanie:

I hear the cosmic OM and try through God's grace to transmit it to others, whether it's face to face, by computer or over the phone. More and more clients tell me they do receive the infinite sound that comforts, heals, and relieves emotional stress. My guidance flows from the mystical world of Edgar Cayce and enlightened gurus of the Himalaya Mountains. I have seen the blue center of the spiritual eye since the age of four, and first transmitted the OM at the age of six. Over the last forty years I discovered that the OM has miraculous properties, such as healing, the restoration of the soul, and a myriad of other energies. I also work, at his request, for a prominent doctor in Arizona. I send the OM to his terminally ill cancer patients, and these patients have reported up to 95 percent recovery after receiving only five minutes of the OM. These people have not been in my presence, nor are they aware that I have sent the OM to them. During August of 2005, I sent the OM to a cancer patient who had a tumor in his stomach, and when he went for his checkup the following week his doctor made a dramatic discovery. He had an actual incision in his stomach, as if he had had laser surgery, and the MRI revealed that the tumor was gone! I also work for Immune Recovery Wellness in Tucson, Arizona, remotely sending the OM to horses and people. My husband and I were reunited in 1998 by the angel of Edgar Cayce. We have been happily married since April 2000, and make our home on the summit of one of Arizona's beautiful and towering mountains.
